

REMARKS

As amended, the first three elements are supported by the Applicant's parent application. Therefore, since the present application has an earlier effective filing date than the previously cited Heo reference, the present application should now be in condition for allowance. The Applicant asserts that, even if Heo teaches these elements, it does not matter because the Applicant's parent teaches all three of those elements as well. Therefore, Heo is ineffective as a Section 103 rejection reference to be combined with another reference.

Respectfully submitted,
